I verified this morning with Tetra tech that this is, in fact, their final version (I held off as this was a resubmittal that can Friday as I was reviewing first submittal).

You should have everything now.

Thank you,

Jeff Kimble, EPA OSC

Mr. Kimble,

Tetra Tech is resubmitting the data validation report for the World Wide Tannery site previously submitted on February 8, 2018. Sample detection and/or quantitation limits were corrected for two samples and two samples were inadvertently excluded from the previous submittal. Therefore, please disregard the previous submittal. Please contact me with questions or comments.

Thank you,
 Kris Schnoes
